Traveler Reviews

Excellent

EXCELLENT

I'm immensely grateful to Tej, our superlative guide Priscilla Tamang, and the wonderful driver Souk for our fabulous trip to Mustang in May.

I travelled with my 80 year old mother to the Tiji Festival in Lo Manthang as part of an 10 day trip organized by Nepal Alternative Treks. We have travelled extensively (and my mother had been to Mustang in the '90s) and it was one of the best trips we have ever had.

Not only was the entire Mustang region breathtakingly beautiful, but the trip was very well organized, balanced, and took into consideration our needs and desires. Every day was perfect and Priscilla managed to take care of everything, even when there were unavoidable problems (such as flight cancellations).

I cannot say enough good things about our experience and 100% recommend booking a trip with Nepal Alternative and especially guide Priscilla Tamang. Thank you!

What is Acute Mountain Sickness? What chances to catch AMS in this route ? What happens if we fall sick?

As you ascend, the atmospheric pressure decreases. Hence, the amount of oxygen available also decreases. When your body is unable to acclimatize adequately to a rapid decrease in oxygen volume, altitude sickness occurs. Its symptoms are nausea, vomiting, headache, lack of appetite, exhaustion, muscle aches, rapid pulse even at rest (+/- 120 beats per minute), and insomnia.

To avoid AMS, our itineraries include acclimatization days in between. You should walk at a slow and steady pace, eat enough carbohydrates, and drink plenty of water. You could eat chocolates and toffee while walking and avoid alcohol and smoking.

You always have some chances to get AMS on the trek if the trail ascends above 3000m in general. The highest elevation is 3900m. you will reach on this route and you will have enough acclimatization to avoid it. So you have just a little risk of AMS and you can drive down from any place of this itinerary. So, you are in safe side.

Our guides are well-trained to handle emergencies like AMS and other sicknesses. They know how to use an oxygen meter to monitor blood oxygen saturation levels at high altitudes. They can facilitate you with other medical kits (First Aid) and health check-up as per necessity.

If you happen to have symptoms of AMS or the feeling of being sick, you have to report it to your guide immediately. You must not ascend any further, take rest, and take medicines like acetazolamide or Diamox. If symptoms persist, you must descend to a lower altitude and visit a doctor immediately. If the condition seems to worsen, we shall coordinate with your insurance company for helicopter evacuation.

Can we change money along the route ? Can we pay by credit card or foreign

currency ?

You will be able to change money in Jomsom but the rate will be low. So, we recommend changing money at Thamel or Pokhara. Credit card and foreign currency are not accepted along the route. You are better to take enough cash from Kathmandu/Pokhara.

How many travelers can accommodate in a jeep ? and weight limit for Jomsom flight ?

Usually, we arrange one Jeep for 6 travelers and one tour guide.

You can carry a maximum 10Kg of luggage (two pieces) and a maximum 5kg of hand-carry for Jomsom flight . You will have to pay \$ 1 around for excess baggage.

What kind of food will be provided during this tour ?

Our package includes three meals per day, breakfast, lunch, and dinner. Dinner and lunch include the authentic Nepali Daal-Bhat (rice and lentils) along with seasonal vegetables, spinach, and pickle. If you do not like it, you can choose any item from the wide range of menu offered by the lodges.

Tea houses and lodges serve Nepalese, Asian, and Continental food, and even pizzas. The food is prepared hygienically, but the taste of western food might not meet your expectations as there are minimal resources available. We usually suggest eating vegetarian food to avoid falling ill.

How can drinking water be managed in the mountain ?

Bottled plastic water is readily available along route at USD 1 per liter. However, we recommend you carry your own water bottles. You can fill them up with filtered water wherever possible and purify it using chlorine or iodine. We shall provide water, purification drops, and tablets. You can fill up safe drinking water stationed by Annapurna Conservation Area.

How long will we drive each day during the tour ?

An average day of tour involves around 4 to 6 hours of driving, including breaks for meals as needed. The average distance covered depends on the terrain and altitude, but ranges from 60 to 70 kilometers on average.

Along the way, you will have many chances for photography and other personal interests such as bird watching and discovering local areas of interest like natural springs, hot water ponds, and even exploring flora and fauna.

What are the documents that we need to bring for this tour ?

You need to submit the following documents that should be sent via email :

- A copy of passport,
- Passport-sized photos,
- Flight details,
- Copy of travel insurance (it has to cover Heli rescue and medical evacuation) and other documents

required to claim it.

Upon Arrival :

- We need an original passport with Nepal visa to obtain Upper Mustang special permit .

What are the accommodation arrangements during the tour ?

In this route, the accommodation options are teahouses and lodges only. Nepal Alternative Treks generally manages your accommodation in the best available teahouses or lodges that provide single or double rooms, mostly in dormitory-style. The bed has a mattress, pillow, and blanket. Very few teahouses offer a room with a heater, and the blanket provided by the teahouse alone will not be enough to withstand the cold. So, it would be better to carry a warm sleeping bag. You can buy or hire one at the rental shops in Kathmandu.

What kind of toilet facilities are there? Will we be able to take a shower in Mountain regions?

Lodges and teahouses in this route have excellent infrastructure and are likely to have western-style toilets, and sometimes even attached toilets. Finding toilet paper is costly in these areas, so we advise you to carry plenty of your own.

If you need to use the toilet while driving, we will try to find the nearest lodge, if possible; otherwise, you will have to manage it somewhere in the forests. Please respect the environment by placing the used toilet paper in a plastic bag so that you can dispose of it later.

Usually, Nepal Alternative Treks arranges accommodation with proper shower facilities. Please understand that it becomes difficult to arrange running showers and hot water facilities as the altitude increases. So, in remote mountainous regions, showers cost some extra money.

Can we hire gears in Kathmandu?

Yes, there are plenty of shops around Thamel and Pokhara that sell as well as rent all the necessary gear for tour. These shops have great varieties of goods ranging based on their brand as well as price. We will help you with buying or hiring all the necessary equipment.

Are alcoholic beverages available in tour ?

You can easily find different types of alcoholic beverages of international as well as Nepalese brands in this tour route. In villages, however, you can either find local (home-made) drinks like Chyang, Raksi, and Tongba or other packaged drinks of Nepalese brands and Chinese brands. However, we do not suggest you consume alcoholic beverages often during tour as it causes difficulties in trekking the next day.

Is it possible to recharge batteries and electronics during the tour ?

Nowadays, all kinds of facilities, including recharging batteries and electronics, are available in Upper Mustang route and also have electricity and recharging facilities available for a minimal service charge.

Also, note that the Nepalese plugs are of Type D, and the voltage is about 220-240 V. So, make sure that your devices are chargeable. Otherwise, you shall require adapters and voltage stabilizers.

Is it possible to communicate with friends and family back home while on tour ?

There are mobile networks, internet data, and Wi-Fi available in some parts of this region, and you can connect to your friends and family back home.

For mobile network and internet data, you will require a Nepalese SIM-Card. If you wish to buy a Nepalese SIM-Card, we will assist you in getting it. You can buy a SIM-Card from local distributors easily with some fees. We recommend **Namaste** SIM to have better network coverage and 4G data uses.

What if the guide leaves alone on the trail?

The guide will always be together with you. Our guide will not leave you behind. If by any chance such a circumstance occurs, you have to contact us immediately. We will then connect to our guides and get back to you. We assure you.

What is the weather and temperature like we can expect during the tour ?

The temperature could range around and above 20 degrees Celsius in summers and decrease below -10 degrees Celsius in winters. During autumn and spring, temperature ranges around 10 to 15 degrees Celsius, making it suitable for tour purposes.

Do we need to tip my tour guide?

It is not mandatory to tip the tour guide. It ultimately depends on your choice. As your guide play a big role in the success of your trip, from guiding and carrying your necessities to being mindful of your safety, your tips reflect gratitude towards them. Hence, tipping is a recommended culture for guides in Nepal as a gesture of thankfulness.
